Important Policy Changes at Bethpage State Park Golf Courses – Effective for Reservations Starting May 1, 2025

We are implementing the following policy and rule changes in an effort to improve the online reservation system for Bethpage golfers. We understand the challenges created by the high demand at Bethpage and are working with our reservation system provider, foreUP, to implement new tools to help prevent potential unfair access to tee times through automation.

Non-Refundable Booking Fee

- The current **\$5 per person reservation fee**, which has been collected at check-in, will now be charged **at the time the online reservation is made** and referred to as the "booking fee."
- This fee is **non-refundable** if the tee time is canceled, modified, or missed.
- The fee will **only be credited back to the golfer** if the course is closed by the park before play begins and will be issued as a paper raincheck or a credit to your golf account.
- **There are NO INCREASES to current fees.**

Cancellation Policy

- Tee times **must be cancelled at least 48 hours in advance** of the reservation.
- Failure to show up for your tee time will continue to result in a **\$15 per golfer no-show fee**, which must be paid before making future reservations.
- Players not checked in **at least 45 minutes prior** to their tee time will be **marked as a no-show** and **the slot will be released for walk-ups**.

Cancellation Limits

- The monthly cancellation limit per account will be **reduced from 8 to 6**.
- Exceeding this limit will **temporarily lock your account**, preventing additional bookings for the remainder of the month.

Should you have any questions about these changes, please don't hesitate to contact us.
